	Examiner Neil R. McLean	Art Unit 2609	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 -4 are rejected under 35 U.S.C. 102(e) as being anticipated by Nihei (US 7,098,942).

Nihei discloses a method of transferring data from a portable digital storage media to a sheet media, comprising:

Regarding Claim 1:

reading data (Column 3, lines 31-33) from the portable digital storage media (Column 3, lines 41-44, lines 49-50, 3, 4 and 5 in Figure 1, and 20 in Figure 2), into a digital image forming device (See Figures 1 and 2);

writing the data from the digital image forming device into the sheet media

(Column 3, lines 63-66 and 9/10 in Figures 1 and 2); and

Art Unit: 2609

charging a transaction fee (Column 3, lines 56-60, 8 in Figures 1 and 2, and Step 40 in Figure 4).

Regarding Claim 2:

The method of claim 1, wherein the sheet media is paper (Column 3, line 66 – Column 4, line 2).

Regarding Claim 3:

The method of claim 1, further comprising:
establishing a communication link between the portable digital storage media and the digital image forming device (Column 4, lines 19-21 and 30 in Figure 3).

Regarding Claim 4:

The method of claim 1, further comprising:
determining a transaction type, wherein the portable digital storage media (Column 5, lines 1-7) and the sheet media (Column 5, lines 38-41) are identified according to the determined transaction type (Steps 44/45 in Figure 4).

3. Claims 5-9, 11-12, 14 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Frey et al. (US 6,369,908)

Frey et al. discloses a method of purchasing a portable digital storage media from a digital image forming device, comprising:

Art Unit: 2609

Regarding Claim 5:

selecting a portable digital storage media type (Column 3, lines 3-6);

selecting a portable digital storage media amount (Column 3, lines 3-6);

charging a transaction fee (Column 3, lines 19-21 and Column 6, lines 9-11));

and

dispensing the portable digital storage media (Step 238 in Figure 5).

Regarding Claim 6:

The method of claim 5, wherein the portable digital storage media comprises one or more of CD-ROM, DVD-ROM and CD-RW (Column 3, lines 3-6).

Regarding Claim 7:

The method of claim 5, further comprising:

transferring a computer file from the digital image forming device to the portable digital storage media before the step of dispensing the portable digital storage media (Column 5, lines 25-28 and 238 in Figure 5).

Regarding Claim 8:

A system for purchasing a portable digital storage media from a digital image forming device, the system comprising:

a payment interface (16 in Figures 1 and 2);

Art Unit: 2609

a media distribution device for dispensing the portable digital storage media (Step 238 in Figure 5); and

a user input device for selecting one or more of a portable digital storage media type and a portable digital storage media amount (Column 3, lines 3-6);.

Regarding Claim 9:

The system of claim 8, wherein the portable digital storage media comprises one or more of CD-ROM, DVD-ROM and CD-RW (Column 3, lines 3-6).

Regarding Claim 11:

The system of claim 8, wherein the media distribution device is a digital image forming device (Step 238 in Figure 5), and the portable digital storage media is one or more of CD-ROM, DVD-ROM and CD-RW (Column 3, lines 3-6).

Regarding Claim 12:

A system for transferring a computer file from a portable digital storage media, the system comprising:

a media distribution device for distributing a storage media (Step 238 in Figure 5);

a portable digital storage media read/write interface for coupling the portable digital storage media to the media distribution device (Column 5, lines 25-28 and 238 in Figure 5); and

Art Unit: 2609

a payment interface for accepting payment for a transaction in which the computer file is transferred from the portable digital storage media to the storage media (16 in Figures 1 and 2);.

Regarding Claim 14:

The system of claim 12, wherein the portable digital storage media is one or more of CD-ROM, DVD-ROM and CD-RW and the media distribution device is a digital image forming device (Column 5, lines 21-23).

Regarding Claim 15:

The system of claim 12, further comprising:

a portable electronic device interface, wherein the portable electronic device interface is in communication with the portable digital storage media and wherein the portable digital storage media is controlled by a portable electronic device (Column 5, lines 25-28 and 238 in Figure 5).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 10 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Frey et al. as applied to claims 8 and above, and further in view of Nihei.

- a. Frey discloses all of the subject matter as described in claims 8 and 12 above;
- b. Except for specifically teaching the method of wherein the digital forming and media distribution device is a digital photocopier.
- c. However, Nihei, in the same field of endeavor, as disclosed in claims 1-7 above, teaches an image capture system which is capable of reading image data that has been recorded on a portable recording medium brought by a user and of printing the image represented by the read image data (Column 3, lines 63-66).
- d. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention was made to incorporate the digital photocopier of Frey et al. with the image capture system as taught by Nihei.
- e. The motivation to do so would be to help consumers who have shown a strong desire for selecting personal images for printing. However, consumers also exhibit an aversion to uploading posting personal data on the web, even with the use of passwords and other methods of keeping the data secure, and thus are reluctant to use these internet services. Additionally, consumers prefer to receive a tangible manifestation of their data, which can be obtained at an interactive kiosk.

Art Unit: 2609

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fredlund et al. discloses a method for facilitating orders for image services.
